

*Precast Concrete Solutions for Parking Garages*

# Beverly Hospital Parking Garage

*Beverly, Massachusetts*

Finished in the Fall of 2005, this 405 space parking garage provided much needed parking for patients, visitors, and staff of the expanding hospital. The precast concrete spandrel panels were cast with a light gray color concrete, and then they received a light sand blast. Strescon teamed with its sister company Ocean Steel, to provide the complete structural package to William A. Berry & Son.
