

Precast Concrete Solutions for Mixed-use Parking Garages

Martin's Point Health Care Center

Portland, Maine

Located on the picturesque Martin's Point in Portland, Maine this 42,000 sf primary health care facility sits on top of a 216 space total precast concrete parking structure fabricated and erected by Strescon Limited.

The exterior elevations of the garage were formed with precast concrete wall panels to visually hide the look of a parking garage.

The Facility was opened in 2010.
